DID YOU KNOW?

A recent study showed that only 18% of women presenting for assistance in achieving pregnancy had knowledge of their signs and symptoms of the window of fertility.

OPPORTUNITY

We will help to maximise your capacity to assist women in monitoring the unique phases of their cycle using an empirical method.

This seminar will help you optimise your patient's chance of pregnancy before intervention.

Participants: All Women's Health Professionals

Presented by: The Ovulation Method Research and Reference Centre of Australia Ltd

Date: Friday, 8th March, 2013

Time: 1.00pm - 4.30pm

Venue: Abbey Beach Resort
595 Bussell Highway,
Busselton, WA 6280

Cost: $40 or $25 (Student) including refreshments

Includes: Full seminar kit with booklets, CD, pamphlets and reference material.

PRESENTERS

Carol Ann Norris has always been interested in good health and completed her Bachelor of Physiotherapy degree from Queensland University in 1975. She is an accredited Billings Ovulation Method™ senior teacher and is responsible for the training of teachers in the Billings Ovulation Method™ in WA. Carol Ann is also involved as an accredited facilitator with the "Loving for Life Program" offering the Billings Ovulation Method™ to year 10 students in Perth secondary schools.

Sue Tonkin has been an accredited Billings Ovulation Method™ senior teacher who has been offering this information to couples seeking a natural method of fertility regulation since 1988. She is also an accredited sexuality educator working in Perth secondary schools with the "Loving for Life Program" in WA with adolescents. Sue also works as an Occupational Therapist.

A newly published paper by the late Emeritus Professor James B Brown on his study of the ovarian variants of the Continuum of Ovarian Activity is available through Human Reproduction Update at Oxford Journals (http://goo.gl/FJw6b)

PROGRAM

Date: Friday 8th March, 2013

Venue: Abbey Beach Resort
595 Bussell Highway, Busselton, WA 6280

1.00pm Registrations

1.15pm Introduction—Learning Objectives

1.20pm Exploring the Science: Significance of Hormonal/Cervical/Vaginal Changes in Understanding Fertility. *Overview of scientific understanding of the events in the ovarian cycle. Including the work of Emeritus James B Brown, Melb and Professor Erik Odeblad, Umea Sweden.*

1.50pm Applying the Science: Fertility and Infertility in the Ovarian Cycle. *Interactive session in which a woman's charted record will be used to identify fertility and infertility and correlated with the circulating ovarian hormones and cervical responses. Guidelines will be provided to best assist a couple toward their fertility objectives of either achieving or avoiding a pregnancy via this natural alternative.*

2.45pm Refreshments

3.00pm Further Applications: Menarche to Menopause—Life-stages and Fertility
Case studies showing the variations in ovarian activity at different stages of reproductive life as well as symptoms indicating ovarian dysfunction requiring medical investigation. The diagnostic benefits of keeping an accurate chart of vulval symptoms will be demonstrated.

4.15pm Evaluation and discussion

4.30pm Finish
